

350 million ID for new substation in Sulaimaniya

03 March 2009

Sulaimaniya provincial council allocated 350 million Iraqi Dinars (ID) to construct a step-down electricity substation in Qoroto district, a member of the council said yesterday.

"The amount is related to the council's budget for 2009," Hoshiyar Mosher told Aswat al-Iraq news agency.

"The station's capacity is 10 megawatt, and it converts power from 32 to 11kv," he said.

Mosher pointed out that work on the project would commence soon.

Sulaimaniya cuty lies 365km northeast of Baghdad.
